

International Symposium on Risk analysis and Safety of Large Structures and Components

The **International Symposium on Risk analysis and Safety of Large Structures and Components** (ISRAS2017) is organised within of the “2nd International Conference of Structural Integrity (ICSI)”, which will take place on the beautiful Madeira Island, Portugal, on 4-7 September 2017. **This Symposium is intended to be a forum of discussion of the recent advances in maintenance, safety, risk analysis, management and life-cycle performance of a wide range of infrastructures, such as, bridges, buildings, dams, railways, underground constructions, wind and transmission towers, offshore platforms, pipelines, naval vessels, ocean structures, nuclear power plants, airplanes and other types of structures including aerospace and automotive structures are considered.** It is expected contributions from engineers, metallurgists, material scientists, among others, allowing a very multidisciplinary discussion.

All contributions in the form of extended abstracts will be peer reviewed by the members of ISRAS2017 Scientific Committee. Selected full papers will be published in a special issue of the Engineering Failure Analysis (Elsevier).

The ESIS technical committee “TC12 - Risk Analysis and Safety of Large Structures and Components” supports the International Symposium. The annual meeting of the TC12 will be performed during the conference event.

Important Dates:

Abstract Submission: February 28, 2017

Notification on abstract: March 15, 2017

Full Paper submission: April 25, 2017

Please submit your work by email to jacorreia@inegi.up.pt with subject ISRAS2017

Organizing Committee:

Aleksandar Sedmak, Co-chair (University of Belgrade, Serbia)

José A.F.O. Correia, Co-chair (University of Porto, Portugal)

Vladimir Moskvichev, Co-chair (SCTB "Nauka" KSC SB RAS, Krasnoyarsk Scientific Center, Russia)

Abílio M.P. De Jesus (University of Porto, Portugal)

Carlos Rebelo (University of Coimbra, Portugal)

Filippo Berto (Norwegian University of Science and Technology, Norway)

Grzegorz Lesiuk (Wrocław University of Science and Technology, Poland)

Miguel Muñiz-Calvente (University of Oviedo, Spain)
