

## International Symposium on Structural Integrity of Old Steel Bridges

The **International Symposium on Structural Integrity of Old Steel Bridges** (ISSI-Bridges 2017) is organised within the “**2<sup>nd</sup> International Conference of Structural Integrity (ICSI)**”, which will take place on the beautiful Madeira Island, Portugal, on 4-7 September 2017. This Symposium is intended to be a forum of discussion of the recent advances in the domain of the structural integrity, maintenance, durability, reinforcement and sustainable of old steel bridges. It is expected contributions from engineers, scientists, consultants among others, allowing a very multidisciplinary discussion.

The goal of the ***First International Symposium on Structural Integrity of Old Steel Bridges (ISSI-Bridges 2017)*** is to provide a platform to present the last researches on:

- Design and Construction
- Structural Integrity
- Structural Safety and Performance
- Inspection, Assessment and Durability
- Fatigue and Fracture Mechanics
- Retrofitting and Repairing
- Infrastructure management

The conference proceedings will be published with open-access by Elsevier's Procedia Structural Integrity before ICSI starts, and also a set of selected papers of the ISSI-Bridges will be published on Journal **Bridge Structures**.

Important Dates:

Abstract Submission: February 25, 2017

Notification on abstract: March 15, 2017

Full Paper submission: April 25, 2017

Please submit your work by email to [issibridges@dec.uc.pt](mailto:issibridges@dec.uc.pt)

### ***Organizing Committee:***

Carlos Rebelo, Chair (University of Coimbra, Portugal)

Peter Collin (Ramböll, Luleå University of Technology, Sweden)

José António Correia, Co-Chair (INEGI, University of Coimbra, Portugal)

Abílio M.P. De Jesus, Co-Chair (University of Porto, Portugal)

Luis Simões da Silva, Co-Chair (University of Coimbra, Portugal)

Khaled M. Mahmoud, Co-Chair (Bridge Technology Consulting, USA)
